## **Context**

In February 2019, the Department for Education (DfE) published guidance for schools on *Relationships Education, Relationships and Sex Education (SRE) and Health Education*.

This guidance replaces the *Sex and Relationship Education* guidance (2000). Schools are expected to teach according to this guidance from September 2020.

## **What is Relationships Education?**

Relationships Education in primary school is teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, and relationships with other children and with adults. This starts with pupils being taught about what a relationship is, what friendship is, what family means and who the people are who can support them.

For more information on *Relationships Education* [click here](#) to view the full DfE guidance and refer to pp.19-22.

## **Is Relationships and Sex Education (RSE) mandatory?**

No. Whilst Relationships Education and Health Education will be compulsory in all primary schools from September 2020, Sex Education is not mandatory in primary schools. The DfE states that it is for primary schools to determine whether they need to cover any additional content on Sex Education beyond the mandatory Science Curriculum to meet the needs of their pupils.

## **Relationships and Sex Education (RSE) at West Kidlington Primary School and Nursery**

At West Kidlington Primary School and Nursery, we believe that all children, regardless of gender, religion or background, have the right to access age-appropriate RSE and, as such, uphold our right to teach Relationships and Sex Education (RSE) to meet the needs of our pupils. See below for our reasons. That said, we understand and respect that parents have the right to request that their child be withdrawn from some or all of Sex Education (see below for more information on *Right to Withdraw*). There is no right to withdraw from Relationships Education or Health Education.

Brook ([www.brook.org.uk](http://www.brook.org.uk)), the PSHE Association ([www.pshe-association.org.uk](http://www.pshe-association.org.uk)) and the Sex Education Forum ([www.sexeducationforum.org.uk](http://www.sexeducationforum.org.uk)) worked together to produce advice for schools which supplements the DfE's guidance.

## **This advice states:**

Teaching RSE is vital – done well, it is enriching for teachers and pupils alike. It also helps schools fulfil their duties to protect, safeguard and promote the wellbeing of their pupils.

## **What is Relationships and Sex Education (RSE)?**

RSE is learning about the emotional, social and physical aspects of growing up, relationships, sex, human sexuality and sexual health. Some aspects are taught in science, and others are taught as part of personal, social, health and economic education (PSHE).

A comprehensive programme of RSE provides accurate information about the body, reproduction, sex, and sexual health. It also gives children and young people essential skills for building positive, enjoyable, respectful and non-exploitative relationships and staying safe both on and offline.

## **Why is RSE in schools important?**

High quality RSE helps create safe school communities in which pupils can grow, learn, and develop positive, healthy behaviour for life. It is essential for the following reasons:

- Children and young people have a right to good quality education and to protection from any kind of exploitation (being taken advantage of), as set out in the United Nations Convention on the Rights of the Child.
- Children and young people want to be prepared for the physical and emotional changes they undergo at puberty, and young people want to learn about relationships. Older pupils frequently say that sex and relationships education was ‘too little, too late and too biological’. Ofsted reinforced this in their 2013 *Not Yet Good Enough* report.
- RSE plays a vital part in meeting schools’ safeguarding obligations. Ofsted is clear that schools must have a preventative programme that enables pupils to learn about safety and risks in relationships.
- Schools maintain a statutory obligation under the Children Act (2004) to promote their pupils’ wellbeing, and under the Education Act (1996) to prepare children and young people for the challenges, opportunities and responsibilities of adult life. A comprehensive RSE programme can have a positive impact on pupils’ health and wellbeing and their ability to achieve and can play a crucial part in meeting these obligations.
- The Department of Health set out its ambition for all children and young people to receive high quality RSE in the *Sexual Health Improvement Framework* (2013), while the Department for Education’s paper *The Importance of Teaching* (2010) highlighted that ‘Children need high quality sex and relationships education so they can make wise and informed choices’.
- West Kidlington Primary School wishes to provide RSE that prepares our pupils to lead safe, fulfilling and enjoyable lives and is in accordance with DfE guidelines.

## **Content and delivery**

### The teaching of RSE:

At West Kidlington Primary School and Nursery, we have a PSHE curriculum which covers relationships, staying safe, keeping healthy and feelings/emotions (Jigsaw Curriculum). This is a progressive scheme and builds on pupils learning year on year, ensuring that every aspect covered is age appropriate. In addition to this, aspects of RSE are included in work for other subjects such as Science and Guided Reading. In each year group, PSHE Education is delivered by the class teacher or a HLTA.

See *Appendix 1* - Table showing objectives currently covered in each year group via Jigsaw PSHE [and Science](#).

Monitoring is undertaken by the PSHE Subject Leader, Mrs Orton and SLT.

RSE has three main elements:

### Attitudes and values:

- learning the importance of values and individual conscience and moral considerations;
- learning the value of family life and stable and loving relationships for the nurture of children;
- learning the value of respect, love and care;
- exploring, considering and understanding moral dilemmas;
- developing critical thinking as part of decision-making.

Personal and social skills:

- learning to manage emotions and relationships confidently and sensitively;
- developing self-respect and empathy for others;
- learning to make choices based on an understanding of difference and with an absence of prejudice;
- developing an appreciation of the consequences of choices made;
- managing conflict;

- learning how to recognise and avoid exploitation and

abuse.

#### Knowledge and understanding:

- learning and understanding physical development at appropriate stages;
- understanding human sexuality, reproduction, emotions and relationships;

### **Confidentiality**

The school's work in RSE will result in sensitive issues being discussed, either with groups of pupils or with individuals. We will:

- reassure pupils that their best interests will be maintained;
- encourage pupils to talk to their parents/carers and provide support in this if necessary;
- ensure that pupils are aware that teachers cannot offer unconditional confidentiality;
- inform pupils that if an external agency needs to be informed, they will be told first and supported appropriately;
- uphold Child Protection guidelines and procedures if there is any possibility of abuse;
- ensure that pupils are informed of sources of confidential help.

### **The use of outside visiting speakers and health professionals**

Visitors are made fully aware of the school's RSE Policy. All visitors are subject to the school's Child Protection and Safeguarding Policy.

### **The right of parents/carers to withdraw their child from RSE**

We will ensure, should they wish, that parents/carers have the opportunity to watch films/images shown to the children that they may be concerned about. Parents/carers have the right to withdraw their children from Sex Education except from those elements that are in the National Curriculum for Science. Requests should be made, in writing, to the Principal.

Parents/carers are not obliged to give their reasons for wishing to withdraw their child but are encouraged to discuss the matter with a senior member of staff.

There is no right to withdraw from Relationships Education or Health Education.

### **Monitoring & Evaluation**

In order to effectively evaluate this policy, the school's Governing Body will ask the following questions on an annual basis or in light of any developments and changes in school:

- Are our aims being met?
- How can we tell?

- Have there been any difficulties? Why have they arisen?
- What have been the successes? What made these possible?
- What do parents and pupils think about our policy?
- Are there any local or national initiatives in which the school should join?
- How can the policy be improved?

## **Review**

This policy will be reviewed every three years, or sooner if government guidance changes.
